

Monitoring Programs from Appendix C

Key

* = real-time monitoring

** = adaptive management

Italics = maybe not need take coverage?

Clear Creek

- ***Adult Spring Chinook Escapement Monitoring in Clear Creek:** video weir; snorkel surveys; life history sample collection (carcass)
- **Juvenile Spring-Run and Steelhead Production Monitoring in Clear Creek:** rotary screw traps
- **Adult Steelhead and Late-fall Chinook Escapement Monitoring in Clear Creek:** video weir and kayak redd counts

Sacramento River

- ***Red Bluff Diversion Dam Rotary Screw Trap Juvenile Monitoring Project:** juvenile estimates for all Chinook runs; lamprey, green sturgeon.
- ***Juvenile Salmon Delta Emigration Real Time Monitoring:** Sacramento and Chipps Trawl for salmonids.
- ***Lower Sacramento River Juvenile Salmon and Steelhead Monitoring Project:** rotary screw trapping at Knights landing
- ***Winter-run Chinook Salmon Escapement Monitoring:** Carcass surveys
- **Spring, Fall, and Late-fall Chinook Salmon and Steelhead Escapement Monitoring in the Upper Sacramento River Basin:** carcass surveys, aerial and wading redd surveys; video weirs, snorkel surveys in mainstem and major tributaries. Life history sample collection (carcass)
- ****Upper Sacramento River Habitat Restoration Monitoring Project:** project effectiveness surveys at habitat improvement projects (snorkel; video; electrofish; seine)

American

- **American River Chinook Salmon and Steelhead Escapement Estimation:** carcass surveys, aerial and wading redd surveys

Stanislaus

- **Stanislaus River Chinook Salmon and Steelhead Escapement Estimation:** carcass surveys, aerial and wading redd surveys

San Joaquin

- **Mossdale Spring Trawl:** trawl for juvenile steelhead and Chinook salmon

Hatchery

- **Genetic Analyses of California Salmonid Populations: Parentage Based Tagging (PBT) of salmonids in California Hatchery Programs.**

Delta

- ***Fish Salvage Operations: Tracy and Skinner:** daily salvage and loss; operational conditions, tissue sample collection.
- **Delta Juvenile Salmon Monitoring (DJFMP seines and trawls)**
- Smelt
- **Delta Flow Measurement and Database Management*
- **Environmental Monitoring Program**
- **Enhanced Delta Smelt Monitoring*
- *Fall Midwater Trawl: Delta, Deep water shipping channel, and San Pablo Bay*
- *20-mm Survey monitoring to determine distribution and relative abundance of Delta Smelt and Longfin smelt*
- *Spring Kodiak Trawl*
- **Estuarine and Marine Fish Abundance and Distribution Survey**
- **Smelt Larva Survey (SLS)**
- **Summer Townet Survey**
- ***Tidal Wetland Monitoring Studies*
- ***Bay Salinity Monitoring*
- ***Upper Estuary Zooplankton Sampling*

Multi Division

- ***Genetic Identification of Salmonids and Smelt to Inform Central Valley Project Operations and Bay-Delta Monitoring:** For verifying winter and spring run. Sampling at fish facilities and monitoring programs to help with juvenile estimates; and larval fish ID at fish facilities.
- ***Operation of Thermograph Stations**
- **Enhanced Acoustic Tagging, Analysis, and Real-time Monitoring:** Sacramento River through delta. Salmonids and sturgeon. Survival. Mention of real-time.

Gaps in Monitoring

- Funding or studies beyond collection of data (otolith/scale collection). Genetics may be covered for all monitoring.
- Operation of Clear Creek segregation weir (to separate fall and spring run Chinook salmon during spawning)
- Inclusion of steelhead at Red Bluff Diversion Dam screw trapping
- Clear Creek habitat surveys
