Evan --

After talking with the mgmt team today, I still think that these are the right tasks and the right order.

For take table work, note that there are difference versions floating around bc of vpn issues, ask please be careful that you work on the right one. Also note that there are updated terms and conditions on the server, too.

Thanks,
Cathy

Hi Garwin,

I could be available a few hours Saturday night and then the same on Sunday?

After chatting with Cathy, the following were identified as current work tasks:

- Review the supplemental Shasta section
- Take table and statement work (in process),
- Terms and conditions drafting,
- Locate missing references from Shasta section,
- Any review of comments (PWA or peer) that are sent to me

Evan
