Subject: Re: SRS integration

Howard--Attached are my track changes to the:
-- SRS Contractors Resolution in the intro section. Please put the attached in the ROCON drive
-- Shasta supplemental effects.

Cathy--Seems to me that the supplemental analysis is the correct location for the SR Contractors Resolution. To the extent that Maria wants it as an integral part of the proposed action and analysis, we will be getting it on June 27. If it becomes part of the actual analysis, it begs the question of why we couldn't embed Reclamation's June 14 changes to the PA into the effects sections themselves, but rather, tack them on in the end of the division effects sections.

Garwin,
Stepping in as your Father's Day VPN surrogate. Here is the work that I have done on the SRS component. Added language to the Introduction and the Shasta Supplement. Looping in Cathy since she is going to be working to bolster the Shasta SRS supplement. Moving on to the I&S section now.
