Subject: Ideas from 11/30 "OMR -- Salvage and Metrics" discussion

Josh, Elissa, Mike, Jeff -- Suggested edits and ideas from this morning's discussion are captured in the attached document. Reminder that the base document dates to 11/26, so is not current, but was deemed close enough to support our discussion on onset and offramp criteria.

Garwin -- cc'ing you FYI.

Josh -- Note that I did NOT include Katrina on this e-mail in case you and your staff wanted to review/revise before sharing with her.

Thanks, all, and hope you some ROC-free moments this weekend.

Barb
