Subject: Re: ROC on LTO Shasta next steps?

I think the main thing is that we committed to providing Reclamation with more details on the benefits of the fish passage program so we should deliver them hard copies of the attached white paper prepared for NOAA Policy. The only other do out that I recall is that Reclamation will convene a technical meeting to discuss reintroductions and maybe more specifically to discuss incorporating reintroduction in the WR life-cycle model. Could you take the lead on getting hard copies of this white paper over to Reclamation?
Howard

Hey Howard,

Are there next steps on the Shasta division? I missed the very end of the meeting Tuesday and just wanted to know if there were any tasks/assignments for me (or that I could help with).

Let me know, thanks
Evan
