Subject: Analytical Methods Requested - Invitation to edit

cathy.marcinkevage@noaa.gov has invited you to **edit** the following document:

Analytical Methods Requested

This is the draft list of analytical needs for tomorrow's 10 am. I put into two categories, and used my judgement to rank within those categories.

Several items can complement the WRLCM, so I provided an "either/or" for a few. In a perfect world we'd have both, but we can probably make a case for one or the other.

I didn't put timelines because aren't they all needed basically now? Yes.
