Subject: Wednesday Director's Meeting

Barry and Paul,

Attached is the integrated USFWS/NMFS BiOp schedule that we are working from at the moment and below are some NMFS-based updates for our 10 am call.

Howard

ROC on LTO Wednesday Check In NMFS Update

1. Good News:

We have completed all but one of the Post-sufficiency Review Focus Group Meetings. The last remaining meeting is for the 4-tiered Shasta Summer Temperature Management Plan. The meeting was originally scheduled for Tuesday, 3/6, but was postponed due to schedule challenges.

2. NMFS is making progress on BiOp drafting. Initial drafts of first several chapters are complete and going through internal review. Effects Analysis is in the drafting stage.

3. NMFS and USFWS have developed an integrated schedule (attached)

4. 3-Director's meeting scheduled for Friday, March 8. Jana, Russ and Howard are developing a coordinated agenda.

Challenges:

1. Schedule.
