Subject: 2017 Five-Agency AMP for ROC LTO

Howard -- See attached and description below. These attachments can be sent to FWS and Reclamation, as agreed at our Friday directors meeting.

These are also saved here:
CVP ROCON\Adaptive Management

Cathy

Attached is a version of the 2017 Five-Agency Adaptive Management Program document revised to remove reference to and specifics of California WaterFix. (Caveat: The appendices still need some work in this regard, but some could actually be replaced with items more specific to ROC LTO, so I did this much for now. I also fixed some numbering that was incorrect.) I have also attached a clearer copy of Figure 4-1 since the resolution of that in the document is quite poor.

I believe that we can use this as a framework into which the ROC LTO components can be applied, and I look forward to working out approaches to bringing this insightful document into the ROC operations.
