We haven't discussed in detail, but I cannot fathom how we would have any capacity to review this at any level. We are a cooperating agency, not a lead agency, so we do not need to, which is helpful given the ESA demands. However, if we do decide to pass, we should issue a response for our record stating so, and I HIGHLY ADVISE against including the draft EIS in our record if we do not review it --- we will not have read it and therefore would not have considered it in our consultation.

We'll work on this. Sit tight on it for now.

Do we need to assign review of this to anyone? Or are we taking a pass and just focusing on the BiOp?

Hi everyone,

I don't think anyone has reviewed the whole thing and submitted comments yet, but please send comments to me (bcnelson@usbr.gov) and sha-mpr-bdo@usbr.gov instead of the email listed previously. The deadline is still no later than April 12.

Thanks,
Ben

Hello all -

Attached is the 1st Administrative Draft Environmental Impact Statement for the ROC on LTO for your review as a NEPA cooperating agency for the ROC on LTO. Attached is the main body of the document, which is Chapters 1 through 5, and then also attached are Appendices A - X and attachments. Please send any comments to ROConLTO@usbr.gov by no later than April 12. Please provide comments in track changes in the word files if possible. We look forward to your comments to improve the document.

Thank you,

Katrina Harrison
