Comments

DST ended 11/5 @ 0200, 1 hour added to fishing period

Adult Adclip CS @ 53cm recovered in RST Cone.

Trap cones raised at 10:30AM. Traps not fishing over Monday holiday. Fishing will resume 12/26

One additional SH was inadvertently returned to the river before assessing for the presence of an adipos

FR CS inadvertently released prior to collecting length

Turbidity meter not functioning properly. No turbidity measurement collected.

No flow data from CDEC
No flow data from CDEC

Turbidity meter not functioning properly. No turbidity measurement collected.
Backwatering effect from increased flow out of the Feather River has seemingly muted Sacramento River
