ISBN 1-56032-091-5 (paper)

TABLE OF CONTENTS

Contributors	xv
Preface	xix
Preface to the First Edition	xxi
Introduction	1
CHAPTER 1	
Introduction to Aquatic Toxicology	3
<i>G. M. Rand, P. G. Wells, and L. S. McCarty</i>	
Aquatic Toxicology	3
A Short History of Aquatic Toxicology	4
The Aquatic Environment	8
Factors that Affect the Environmental Concentration of Chemicals	16
Basic Toxicological Concepts and Principles	18
Factors that Influence Toxicity	21
Toxic Agents and Their Effects	23
Examination of Concentration-Response Relationships	28
Toxicity Testing	34
Interpreting Toxicity Test Data	44
Biomonitoring	54
Toxicity Data and Environmental Regulations	56
Summary	57
Literature Cited	57
Supplemental Reading	66

PART I

EFFECTS—TOXICITY TESTING

CHAPTER 2	
Freshwater Tests	71
<i>J. D. Cooney</i>	
Introduction	71
Freshwater Toxicity Test Procedures	72
Methodology	74
General Procedures	82
Factors that Modify Toxicity	94
Variability of Test Results	97
Literature Cited	98

CHAPTER 3

Saltwater Tests	103
<i>G. S. Ward</i>	

Introduction	103
General Saltwater Toxicity Test Methodology/Procedures	103
Developing Community Tests	126
Literature Cited	131

CHAPTER 4

Algae and Vascular Plant Tests	135
<i>M. A. Lewis</i>	

Introduction	135
Terminology	136
The Need for Phytotoxicity Data	137
Test Methods: Algae	137
Test Methods: Vascular Plants	148
Bioconcentration	152
Photosynthesis	152
Multispecies Test Methods	152
Representative Phytotoxicity Data	158
Summary	158
Literature Cited	160
Supplemental Reading	169

CHAPTER 5

Sexual Reproduction Tests with Marine Seaweeds (Macroalgae)	171
<i>G. B. Thursby and R. L. Steele</i>	

Introduction	171
Terminology	172
<i>Champia Parvula</i>	172
<i>Laminaria Saccharina</i>	180
<i>Fucus</i>	183
Summary	186
Literature Cited	187

CHAPTER 6

Sea Urchin Sperm Cell Test	189
<i>G. A. Chapman</i>	

Introduction	189
Basic Studies of Sea Urchin Gametes	190
Sperm Cell Test Development	192
Discussion	201
Literature Cited	204
Supplemental Reading	205

CHAPTER 7

FETAX—A Developmental Toxicity Assay Using Frog Embryos	207
<i>J. A. Bantle</i>	

Introduction	207
FETAX Literature Review	209
Terminology	210
FETAX Reference Sources	210
Test Organism	211
FETAX End Points and Exposure Regimens	212
FETAX Positive and Negative Controls	214

	FETAX Methodology	215
	Data Analysis and Interpretation	224
103	Validation Study Results	228
	Summary and Conclusions	228
	Acknowledgments	228
103	Literature Cited	228
103		
126		
131	CHAPTER 8	
	Sediment Tests	231
	<i>C. G. Ingersoll</i>	
135		
	Introduction	231
	Terminology	232
135	Characteristics of Sediment	232
136	General Principles of Sediment Toxicity Tests	233
137	Sediment Quality Assessment	234
137	Sediment Quality Criteria and Bioavailability	236
148	Remediation of Contaminated Sediment	237
152	Methodology	243
152	Interpretation and Significance of Results	246
152	Case Studies	249
158	Summary	251
158	Literature Cited	255
160	Supplemental Reading	
169		
	CHAPTER 9	
	Field Studies	257
	<i>R. L. Graney, J. P. Giesy, and J. R. Clark</i>	
171		
	Introduction	257
	Terminology	259
172	"Natural" Field Studies	264
172	Simulated Field Studies	267
180	Conclusions	295
183	Literature Cited	296
186	Supplemental Reading	304
187		
	CHAPTER 10	
	Statistical Analysis	307
	<i>M. R. Ellersieck and T. W. La Point</i>	
189		
	Introduction	307
190	Considerations for Designing Experiments	308
192	Methods Commonly Used for Continuous Random Variables	315
201	Linear Statistical Model and the Analysis of Variance	319
204	Nonparametric Techniques	328
205	The Main Kinds of Experimental Designs	329
	Linear and Multiple Regression	331
	The Analysis of Covariance	333
207	Multivariate Techniques	333
	Methods Commonly Used for the Discrete Random Variable	335
	Summary	339
207	Acknowledgments	339
209	Literature Cited	339
210	Supplemental Reading	340
210	Appendices	341
211		
212		
214		

CHAPTER 11

Good Laboratory Practices	345
<i>N. DiGiulio and A. V. Malloy</i>	

Introduction	345
Background	345
Terminology	346
Scope and General Description of the GLP Regulations	347
QA/QC Program Designs	360
Future Focus	368
Literature Cited	369
Supplemental Reading	370

CHAPTER 12

Immunotoxicology in Fish	371
<i>D. P. Anderson and M. G. Zeeman</i>	

Introduction—Justifications and Investigational Procedures	371
Terminology	372
Fish Immunology—Defensive Responses	374
Assays and Applications—Immunological Methodologies	383
Immunotoxicology—Effects of Classes of Toxicants	391
Summary, Conclusions, and Future Research	398
Acknowledgments	400
Literature Cited	400
Supplemental Reading	404

CHAPTER 13

Environmental Genotoxicology	405
<i>L. R. Shugart</i>	

Introduction	405
Terminology	406
Basic Mechanisms of DNA Damage	406
Analytical Techniques	408
In Situ Environmental Genotoxicity Studies with Aquatic Species	412
Potential Value of Environmental Genotoxicology	416
Summary	417
Acknowledgments	417
Literature Cited	417
Supplemental Reading	419

CHAPTER 14

Carcinogenicity Tests Using Aquarium Fish	421
<i>W. E. Hawkins, W. W. Walker, and R. M. Overstreet</i>	

Introduction	421
Fundamental Concepts in Carcinogenesis	422
Use of Small Fish to Detect Chemical Carcinogens	427
Considerations in the Design of Carcinogenicity Tests Using Small Fish	431
Analysis of Carcinogen-Induced Lesions in Small-Fish Carcinogenicity Studies	433
Methodology in Small-Fish Carcinogenicity Bioassays	438
Summary	441
Acknowledgments	441
Literature Cited	441
Supplemental Reading	446

PART II
ENVIRONMENTAL FATE

345			
	CHAPTER 15		449
345	Transport and Transformation Processes		
346	<i>W. J. Lyman</i>		
347			449
360	Introduction		451
368	Terminology		453
369	Organic Chemicals		471
370	Inorganic Chemicals		487
	Organometallics		488
	Literature Cited		492
	Supplemental Reading		
371			
	CHAPTER 16		493
	Bioaccumulation and Bioavailability in Multiphase Systems		
	<i>A. Spacie, L. S. McCarty, and G. M. Rand</i>		
371			
372			
374			493
383	Introduction		494
391	Terminology		496
398	Major Processes Affecting Uptake		507
400	Predictive Models and Experimental Approaches		515
400	Conclusions and Future Directions		516
404	Acknowledgments		516
	Literature Cited		521
	Supplemental Reading		
405			
	CHAPTER 17		523
	Biochemical Mechanisms: Metabolism, Adaptation, and Toxicity		
	<i>R. T. Di Giulio, W. H. Benson, B. M. Sanders, and P. A. Van Veld</i>		
405			
406			523
406	Introduction		524
408	Terminology		524
412	Biotransformation: Phase I and Phase II Reactions		538
416	Activated Oxygen Metabolism and Oxidative Stress		545
417	Metal Metabolism and Toxicity		548
417	The Cellular Stress Response		553
417	Summary		553
419	Literature Cited		560
	Supplemental Reading		
421			
	CHAPTER 18		563
	Fate Modeling		
	<i>D. Mackay, L. A. Burns, and G. M. Rand</i>		
421			
422			563
427	Introduction		564
431	Fundamentals of Modeling		571
433	The Mass Balance Concept		574
438	Fate and Effect Models of Interest in Aquatic Toxicology		580
441	An Illustrative One-Compartment Case Study		584
441	Concluding Thoughts		584
441	Literature Cited		586
446	Supplemental Reading		

**PART III
ASSESSMENT**

Exposure/Effects, Environmental Legislation, and Hazard/Risk

Exposure/Effects

CHAPTER 19

Ecosystem Effects: Functional End Points <i>J. Cairns, Jr., B. R. Niederlehner, and E. P. Smith</i>	589
--	-----

Introduction	
Commonly Measured Functional Attributes	589
Observed Effects of Chemicals on Function of Ecosystems	590
Rationale for Selection of Functional End Points	592
Screening Functional End Points for Assessment and Monitoring	593
Statistical Issues in Ecosystem Studies	599
Incorporating Functional End Points into Management	601
Summary	603
Literature Cited	604
Supplemental Reading	604 607

CHAPTER 20

Structure-Activity Relationships <i>R. L. Lipnick</i>	609
--	-----

Introduction	
Historical Background	609
Basic Concepts	613
Use of QSAR Models for Estimation of Physicochemical and Biological Properties (Exposure Assessment)	616
Use of QSAR Models for Ecotoxicity (Effects Assessment)	624
Summary of QSAR Models for Ecotoxicity	630
Literature Cited	642 643

Environmental Legislation

CHAPTER 21

The Federal Insecticide, Fungicide, and Rodenticide Act <i>L. W. Touart</i>	657
--	-----

Introduction	
General Ecotoxicology and Environmental Testing Requirements under FIFRA	657
Risk Assessment under FIFRA	658
Literature Cited	663 668

CHAPTER 22

Toxic Substances Control Act (TSCA) Interagency Testing Committee: Data Developed under Section 4 of TSCA <i>J. D. Walker</i>	669
---	-----

Introduction	
Chemical Testing under the Toxic Substances Control Act	669
The TSCA Interagency Testing Committee	669
The EPA's Implementation of ITC's Testing Recommendations	670
The Chemical Industry's Development of Aquatic Toxicity, Bioconcentration, and Chemical Fate Test Data under TSCA Section 4	671
Literature Cited	680 698

	CHAPTER 23	
	Ecotoxicity Testing and Estimation Methods Developed under Section 5 of the Toxic Substances Control Act (TSCA)	703
	<i>M. G. Zeeman</i>	
	Introduction	703
	The New Chemical Review Process	707
589	Hazard Assessment and Ecotoxicology	709
	QSAR Development	711
	Assessment Factors for Ecotoxicity	713
	Conclusions	713
589	Acknowledgments	713
590	Literature Cited	713
592		
593	CHAPTER 24	
599	The Clean Water Act	717
601	<i>G. W. Hudiburgh, Jr.</i>	
603		
604	Introduction	717
604	Terminology	717
607	The Clean Water Act and Its Implementation	720
	Emerging Activities	731
	Summary and Conclusions	731
609	Literature Cited	732
	CHAPTER 25	
609	FDA's Implementation of the National Environmental Policy Act	735
613	<i>P. G. Vincent</i>	
616		
ment) 624	Introduction	735
630	Terminology	736
642	Pertinent NEPA Legal Issues	742
643	The Environmental Assessment	743
	Literature Cited	762
	CHAPTER 26	
657	Role of the OECD in Chemicals Control and International Harmonization of Testing Methods	763
	<i>N. J. Grandy</i>	
657	Introduction—The OECD and Its Environment Programme	763
658	Chemical Safety and the OECD	764
663	Management of Chemicals	764
668	OECD Guidelines for Testing of Chemicals	769
	Other OECD Chemicals Programme Activities	771
	Summary	
669	Appendix: OECD Guidelines for Testing of Chemicals: List of Guidelines Currently Available (December 1994)	771
	Supplemental Reading	772
	CHAPTER 27	
669	Environmental Regulation in the European Community	775
670	<i>J. Blok and F. Balk</i>	
671		
	Introduction—Environmental Awareness from a European Historical Perspective	775
680	The Story of the Soapers	778
698		

Structure of the European Community with Regard to Environmental Legislation	782	Level
A Short Review of Environmental Directives in the European Community	785	Summ
Environmental Legislation in View of the Basic Principles of Environmental Impact Assessment	792	Litera
